+923396405272

Versatile Software & Web Developer experienced in full-stack development, database design, and building efficient, user-focused applications.

WORK EXPERIENCE

Software Developer | Mindspire Software House

April 2025 – Sep 2025

- Worked on software development projects involving design, coding, and testing, while leveraging AI tools to optimize workflows
- Designed and managed databases using MongoDB, Firebase, Supabase, and MySQL.
- Collaborated with team members to implement new features and optimize existing code.
- Improved application reliability by debugging, testing, and integrating APIs.

Web Developer | Bitstorm Solutions:

January 2025 – April 2025

- Developed and maintained responsive web applications using modern front-end and back-end technologies.
- Collaborated with team members to design and implement user-friendly features based on client requirements.
- Optimized website performance, ensuring faster load times and improved user experience.
- Assisted in troubleshooting, debugging, and deploying web applications to production.
- Gained practical experience in full-stack development and agile teamwork.

SKILLS

- **Software Development:** Application design, coding, debugging, testing
- **Web Development:** Frontend and backend development, responsive design
- **Databases:** MongoDB, Firebase, Supabase, MySQL
- **Backend:** Basic knowledge of Node.js, REST APIs, server-side logic
